 **Marvin**
POS

The friendly, all-in-one
EPoS system for small businesses

We know there ain't no mountain high enough that can keep you from delivering an exceptional customer experience and growing your business.

But to reach those heights you need a powerful and flexible EPoS system that is purpose built to drive your business forward.

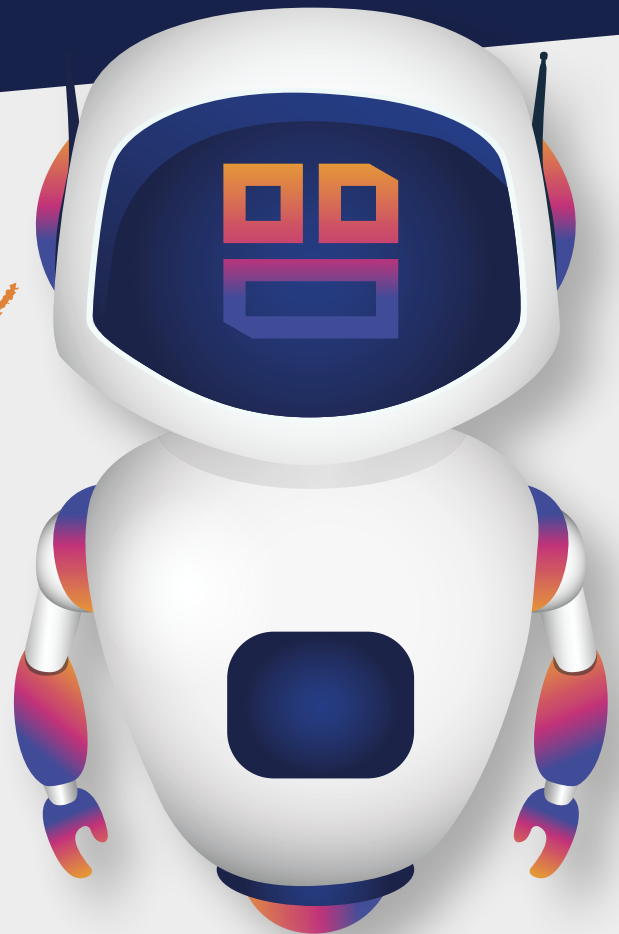

So forget everything you heard through the grapevine.

It's time to...

*meet
Marvin*

Marvin POS is an Android-based EPoS system that is capable of far more than just processing orders, taking payments and doing a stock take.

It's a comprehensive, secure and reliable software solution that forms the backbone of your business. It enables you to create a loyalty scheme, run promotions, manage your team better and get real-time reports on your business.

Always on the menu...

Powerful

An Android EPoS system that does more than process orders, payments & stock check.

Flexible

Personalise orders, take cooking preferences, and upsell sides with ease.

Seamless

Marvin POS enables you to deliver a swift and seamless service to your customers.

Streamlined

Unify your processes, grow a loyal tribe & get real-time reporting all in one place.

Integrated

Seamlessly integrates with other essential 3rd-party systems and Uber Eats.

Bespoke

Your business is unique so Marvin POS can be completely tailored to your needs.

Affordable

Because you run on tight deadlines with even tighter margins, we know that every penny you save on hardware and card rates makes a huge difference to your bottom line. We won't lure you in with a low-rate introductory offer just to hike it up a few months later. We guarantee that our rates will stay low and that our pricing structure is fully transparent, so you always know what you're paying.

Markets & Take Away

Unleash the power of Marvin

In the era of contactless cards, quick taps, and digital wallets, here's what you can expect from Marvin POS:

Marvin POS Software

Synchronise your day-to-day operations and scale your business with one powerful system.

3rd Party Integrations

Build a seamless and streamlined workflow by connecting Marvin to other essential systems.

Marketing & Loyalty Schemes

Keep your customers coming back with tempting offers and automated marketing campaigns.

Handheld Point-of-sale

Introduce flexibility to your ordering process with our lightweight handheld EPoS device.

Cloud Back Office

Reduce waste, save time on stock checks and gain actionable insights with fuss-free reports.

It's all about the money...

Take payments from a range of different systems from chip-and-pin to digital wallets.

Integrated Kitchen Display Systems

Improve order accuracy and reduce kitchen chaos with our integrated back-of-house display systems.

Take away and Delivery

Marvin POS enables you to process and deliver online orders with no hassle or added fees.

*Sleek hardware.
Powerful software.*

Marvin is an Android-based EPoS system that fits on a SIM-enabled handheld device so your entire operation is at your fingertips - perfect for businesses that are on the move and need to be flexible. Access all your products, take payments, stock check and more on one simple, streamlined, lightweight device. But if you need more than just the handheld, there's a solution that's right for you.
